

5-2 and 7-2 ELA Alternate Zoom Assignments

Day 1: Before our Zoom meeting, be ready to summarize a movie, tv show, or even a Youtube video that you have watched. Don't forget that an adequate summary includes the setting (where and when), characters, and plot.

Day 2: Have you gone outside and done anything while we have been at home? If so, then tell me what all you did outside. Describe what all you saw while you were outside. Don't forget to use sensory details! If you haven't gone outside at all while we've been out, then be prepared to thoroughly describe your house!

Day 3: Should you all have a set schedule for your virtual school while we have distance learning? Would this be similar to your schedule at school with separate periods? Make an argument for why or why we should not have this.

Day 4: How has your life been affected by COVID-19 so far? What changes have you had to make to your life? Do you think you and your family are being careful enough? What should we all be doing to make things better?

Day 5: What are some ideas that you all have for even more work if this continues for another few weeks or even month? If I have to create a phase 3 packet, then what all sorts of assignments would you like to have? Be ready to give me lots of ideas.
